

COME BACK IN.

WE'RE SAFER NOW THAN EVER BEFORE.

With all the extra precautions and procedures we put in place to address COVID-19 issues, you can now feel safer than ever at Greenwood Leflore Hospital. While safety has always been our main priority, the need for that was magnified during the most difficult times of the past year when containing the spread of COVID-19 became our most pressing concern.

Now it's time for us to help you feel comfortable in being proactive about your health and getting back into a routine of scheduled GLH clinic visits and diagnostic testing. While we are beginning to relax some policies such as limiting visitors, please know that our added procedures for cleanliness and sanitizing will continue to be in place. As more and more community members become vaccinated and the threat of critical COVID-19 complications lessens, we will continue to update visitor policies as we feel are appropriate.

Greenwood Leflore Hospital has been designated as a **COVID-19 Center of Excellence** by the Mississippi State Department of Health (MSDH), which ensures we will have a steady and reliable supply of vaccines. Greenwood Leflore Hospital continues to follow the MSDH's guidance on COVID-19 vaccine administration. As a Center of Excellence, we are committed to prevention, treatment, and access to care for all in our community.

Greenwood Leflore Hospital
The right care at the right time
